

Key Benefits

1. You will have a program that is ready for immediate use.

After placing your order, you could be using the program in just a few days.

2. You will not have to "reinvent the wheel"; the development process is complete.

There is no need to wait for extended periods of time for development and testing. Since this is a program already in use, there is no need to start from scratch.

3. You will be able to be proactive vs. reactive to your clients' needs.

With up to date, accurate information on all of the people you serve, your clients will receive better attention and your organization will operate more effectively.

4. All of your information will be easily accessible.

Reporting information could not be easier or more flexible. User definable sort criteria will allow you to draw out information in any fashion that meets your needs. You will be able to generate both reports with service numbers and reports with client names.

5. Your well-informed constituents will become better informed funding sources.

With accurate service reports, you will be better able to report to funding agencies. Better reporting leads to better funding!

6. You will enjoy screens that are easy to look at and commands that are easy to use.

Experienced computer users will appreciate the organized screen layout, and novice computer users will be able to quickly and easily learn the program.

7. You will have a technical support team at your fingertips, just call.

It is that simple, pick up the phone and we will be happy to help.

If you have questions or need additional information, please call us at 215-723-5070.
