Technical Services

We offer a variety of technical services to help keep your company running smoothly.

- **Managed Hosting**
Website hosting services for your application or one we have developed for you.
- **Networking Services***
Network administration, installation, and/or integration for both web and network based servers.
- **Hardware Installation***
Installation of your new computer system or upgrade your existing hardware.
- **Preventative Maintenance Agreements***
Four times a year, one of Software Application Services, Inc.'s trained technicians will check your computer system's integrity and recommend a course of action if problems are identified.

* These services are only available in Bucks County and Montgomery County, Pennsylvania.

H.E.A.R.T. Family Software

The **H.E.A.R.T. (Human services Evaluation And Reporting Tools) Family Software** product line was written specifically for rescue missions and homeless service providers. This user-friendly collection of client-tracking software enables these organizations to gather the statistical data they need to operate at optimum levels.

- **H.E.A.R.T.**
Available as a single user license or as a multiple user license on a local area network.
- **H.E.A.R.T. EX**
A web-based system designed for those who wish to host their database internally.
- **H.E.A.R.T. Online**
Also a web-based system that is identical to **H.E.A.R.T. EX** except that Software Application Services, Inc. provides database hosting.

About Us...

Founded in 1996, Software Application Services, Inc. provides a wide variety of technical services for industry and non-profit organizations.

Software Application Services, Inc. has had the opportunity to write custom desktop and web-based software packages for a variety of industries including but not limited to the following:

- social service
- food service
- insurance
- chemical
- tourism
- 401k

For example, the custom desktop software package designed for Service First, Inc. facilitates the order taking process by creating custom bills of lading and inventory tracking reports as well as provides administration support with vendor specific invoices.

Software Application Services, Inc. can also meet your business's software needs quickly and efficiently.

Software Application Services, Inc. continues to gain recognition both nationally and internationally with live and demo software in 48 states and 9 countries.

Here is what satisfied customers are saying about **Software Application Services...**

"Software Application Services took considerable time to learn about the needs of our business and provided considerable time and effort to provide what our company needed to efficiently and effectively run our business..."

**-Scott J. Selkowitz, Chief Operating Officer
International Food Distributors, Inc.**

"The representatives from Software Application Services are knowledgeable and efficient and are readily available to assist with any questions or situation no matter how minor."

**-Boris V. Borichevsky, Vice President
Indian Ridge Provisions, Inc.**

"I could not have found a better partner in you and your team. The H.E.A.R.T. System has more than lived up to your promises and the endorsements of your customers. I am extremely pleased we took the leap and made you, your team, and the H.E.A.R.T. system part of the ministry here at TCC."

**-Scott Richards, Executive Director
The Christian Center**

"Dallas LIFE has used the H.E.A.R.T System for several years now. We have found this program to be a very valuable asset to our operation. It allows us the opportunity to keep very close records of our residents from the very first night right through graduation. The fact that we have current and pertinent information right at our fingertips about all of our clients is a tool that we could not operate without. The staff at H.E.A.R.T has been extremely helpful and accommodating to all of our requests and has gone above and beyond the call of duty to help tailor this program to our specific needs. We would definitely recommend this program to anyone seeking to develop a system of checks and balances in their organization."

**-John E. Koesema, Director of Operations
Dallas Life Foundation**
