

## System Requirements

<b>Recommended:</b>	<b>HEART</b>	<b>EX HEART</b>	<b>Online HEART</b>
<b>Workstations</b>			
CPU:	Pentium 4 (1.0 GHz minimum)	Pentium 4 (1.0 GHz minimum)	Pentium 4 (1.0 GHz minimum)
RAM:	512 MB	512 MB	512 MB
Disk Space:	90 MB (Allocated for Java plug-in)	90 MB (Allocated for Java plug-in)	90 MB (Allocated for Java plug-in)
Operating Systems:	Windows, Linux, or Mac	Windows, Linux, or Mac	Windows, Linux, or Mac
<b>Server</b>			
CPU:	Pentium 4 (2 GHz minimum)	Pentium 4 (2 GHz minimum)	N/A
RAM:	1024 MB	1024 MB	N/A
Disk Space:	5 GB	5 GB	N/A
Operating Systems:	2K / XP / Vista / Windows 2000/2003 Server	Windows 2000/2003 Server w/ Microsoft SQL Server	N/A
Network	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.
<b>Minimum:</b>			
<b>Workstations</b>			
CPU:	Pentium III (800 MHz minimum)	Pentium III (800 MHz minimum)	Pentium III (800 MHz minimum)
RAM:	256 MB	256 MB	256 MB
Disk Space:	75 MB (Allocated for Java plug-in)	75 MB (Allocated for Java plug-in)	75 MB (Allocated for Java plug-in)
Operating Systems:	Windows, Linux, or Mac	Windows, Linux, or Mac	Windows, Linux, or Mac
<b>Server</b>			
CPU:	Pentium 4 (1.4 GHz minimum)	Pentium 4 (1.4 GHz minimum)	N/A
RAM:	512 MB	512 MB	N/A
Disk Space:	3 GB	3 GB	N/A
Operating Systems:	2K / XP / Vista / Windows 2000/2003 Server	Windows 2000/2003 Server w/ Microsoft SQL Server	N/A
Network	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.	As long as the workstation can access the server host, any LAN, WAN, dial-up connection, etc. will be sufficient.
